

For the processing of personal data on the HIGHVOLT website, the information on PRIVACY POLICY, that can be viewed [here](#), applies.

In addition to the information above, the following PRIVACY POLICY applies to registrations for HICADEMY events:

Privacy Policy for HICADEMY Events

If you submit data for a HICADEMY event using the registration form, this data will be stored and used exclusively for the purpose of participation and execution of the event.

If you register for an event, the following data is required for each conclusion of a contract in order to be able to carry out the contract: Title, first name, surname, e-mail address, business address (street, house number, postal code, city, country), differing billing address (street, house number, postal code, city, country). Optionally, you can also enter your phone/fax number, company and department.

If you take part in an event and have not previously objected to this, we will record your name (and if applicable company name and company location) on a list of participants which we will make available to the participants of the event (e.g. as list of participants in the event documentation).

The customer is obliged to provide the provider with personal data, in particular the data on file, if he wishes to conclude a contract with the provider for participation in HICADEMY events. In case the data is not provided, the contract cannot be concluded.

The data stored will be deleted as soon as it is no longer required for its intended purpose and there are no legal storage obligations that prevent deletion. If the user's data is not deleted because it is required for other and legally permissible purposes, their processing will be restricted, i.e. the data will be blocked and not processed for other purposes. This applies, for example, to user data that must be stored for reasons of commercial law or tax law.
